

April 1, 2016

We have plans for you!

Please examine the attached copy of part of the draft cadastral plan.

If necessary, you can attend the meeting with the land surveying firm to help ensure that your property is shown correctly.

A little over a year ago, you were informed by the Ministère de l'Énergie et des Ressources naturelles that work to draw up a new cadastral plan in your sector was about to begin. Today, **it is important for you to examine the draft cadastral plan on which your property is shown, and to make comments before the plan becomes official.** The place and time of the meetings organized with the firm of land surveyors responsible for the work, and a list of the documents you should bring with you, are given on the **back** of this form.

If you are unable to attend any of the meetings, you can ask another person to represent you. You should make sure the other person brings along all the required documents.

Together with this form, you will find a document called "***Cadastral information specific to your property***", which sets out the results of the work for each of your lots. This document is accompanied by a copy of part of the draft cadastral plan that will be presented at the meeting. **You are advised to read these documents carefully!** If they differ from the documents you already have in your possession, please attend the meeting.

You should also read the enclosed leaflet, which answers the main questions concerning the meeting with the land surveying firm.

To obtain more information on the cadastral reform or the work that is currently underway, visit our website at www.mern.gouv.qc.ca/cadastre or contact the Ministère directly. From Québec City area, dial 418 627-8600, and from elsewhere in Québec, call toll-free 1 888 733-3720.

La Direction générale de l'arpentage et du cadastre
